## Technical Skills

---

**Languages:** Java, C, MySQL JavaScript, HTML/CSS

**Libraries/Frameworks:** React, Chart.js, Tailwind CSS, Material UI, Bootstrap

**Developer Tools:** Git, Github, VS Code, IntelliJ

## Certifications

---

### IIT Bombay:

Java Training

- Completed Java Training from IIT Bombay's Spoken Tutorial Project, earning 4 credits with a strong score, demonstrating proficiency in Java, OOP, and problem-solving.

### Dezka Technical Solutions:

Web Development

- Completed a 6-month certification in web development, mastering HTML, CSS, JavaScript, PHP, Bootstrap, and MySQL.

## Projects

---

### Online Learning Platform (LMS): [Go To Website](#) ↗

- Developed the frontend of an online learning management system (LMS) like Udemy using React.js, implementing a highly scalable, responsive UI with lazy loading, efficient state management, and reusable components to optimize performance.
- Integrated Clerk authentication for secure user access control, enhancing authentication flow, data security, and overall system.

### Crypto Dashboard: [Go To Website](#) ↗

- Developed a real-time Crypto Tracker using React.js, JavaScript, and RESTful APIs, optimizing performance with lazy loading and efficient state management.
- Integrated Chart.js for data visualization and Material-UI for a responsive, cross-platform UI.

### E Commerce Website : [Go To Website](#) ↗

- Developed the front-end of an e-commerce website using React.js, implementing a responsive design, user-friendly navigation, and dynamic components to enhance UX and engagement.
- Optimized for cross-platform compatibility and performance while utilizing reusable components and modular design patterns for scalability and maintainability.

## Education

---

### Graphic Era Hill University

Master of Computer Application (CGPA: 8.7 / 10.00)

*Expected May 2025*

*Dehradun, Uttarakhand*

### H.N.B.G.U

Bachelor of Computer Application (CGPA: 6.5 / 10.00)

*Aug 2020 - July 2023*

*Rishikesh, Uttarakhand*
